PREAMBLE

This Company Procedure Manual (CPM) gives the Procedures that have been established in the Company for Implementation, Monitoring and Review of the Shipboard Safety Management System for identifying deficiencies if any and taking necessary corrective action. The objective is to establish a system, which enables the Company to maintain standards of Operation, Maintenance, Emergency preparedness and response onboard its dredgers / craft. This manual covers the requirements of the Company's Safety Management System and ISM Code. This does not replace any other applicable statutory requirements.

INSTRUCTIONS

- This Manual is abbreviated as CPM.
- Under no circumstances shall any page (s) of this manual be edited.
- While referring for Amendment or correction, the reference should contain following COMPANY PROCEDURE MANUAL Revision No. Section No. and Sub Section No.
- Prints of this Manual may be made for specific purposes as deemed fit by DP and issued to the concerned. However, every such printed page should be clearly stamped / marked as "Reference copy" - Please refer to the Controlled copy for latest amendments".
