Point wise Clarifications:

- 1) Earlier BREP renewal was for 26 licences, but the present proposal includes additional 10 Licences, which were procured during current financial year.
- 2) Microsoft updates the software according to user feedback and new requirement. DCI will receive all future updates, patches and version updates from Microsoft without any extra cost.
- 3) Payment is after updating BREP renewal date by Microsoft in the customer Portal of MS Dynamics Axapta and Microsoft will renew for DCI after receipt of payment from B2B. DCI is releasing payment after renewal done by Microsoft and checking validity date of BREP in the Microsoft Dynamics Axapta Customer Portal. After the payment is made after updation of BREP on Microsoft website, and Microsoft being a reputed firm, it is proposed to pay without BG to B2B.
- 4) As per Microsoft policy they do not offer any discount on BREP to any client / Partners (C-25).
